6. Interest / Client Money

6.1 GOOD ENOUGH FX is solely entitled to any interests or earnings derived from your money being deposited in our client trust account. Such interests or earnings may be payable to us from the relevant trust account or depository account. Upon realisation of an investment of your funds, the initial capital invested must either be invested in another

investment or deposited by us into the client trust account. In the event that the amount received upon realisation of an investment of your funds is less than the initial capital invested, we must pay an amount equal to the difference into the client trust account for your benefit, except where any such difference is the result of amounts paid out of the investment to us in accordance with the Client Agreement. We will not charge a fee for investing the money in the client trust account.

7. Income

7.1 The calculation of the price to be paid (or the payout to be received) for Margin FX Contract, at the time the Contract is opened or closed, will be based on market prices available at the time and the expected level of interest rates, implied volatilities and other market conditions during the life of the financial contract and is based on a complex arithmetic calculation. The calculation may include a spread markup in favour of GOOD ENOUGH FX. Spreads will differ depending on the currency pairs traded.

7.2 Spread means the difference between the bid price (price offered) and the ask price (price requested) for the base currency expressed against the terms currency.

The spread is incorporated into the price of the currency pair quoted to you and is not an additional fee or charge payable by you. GOOD ENOUGH FX earns its income from rebates derived from the spread in the prices of the base currencies. In other words, we add an amount to the market ask price when you open a Long Margin FX Contract position and subtract an amount from the market bid price when you open a Short Margin FX position. The Electronic Crossing Network (ECN) Raw spread account allows GOOD ENOUGH FX traders to trade on the raw bid and ask price that we receive from our Interbank counterparties - there is no mark up applied. For this account GOOD ENOUGH FX derives its revenue from a commission charge applied at the close of each trade.

7.3 This means you pay more to buy a currency and receive less when you sell a currency.

The spreads we quote are a number of Pips between the bid price and the ask price. A pip is the last decimal place to which an exchange rate is quoted.

7.4 The spreads we quote are determined by our liquidity provider. It does however receive a commission from its liquidity provider for trades placed with the provider. The spread will be influenced by estimated current spot Interbank exchange rates (for gold and silver our best estimate of current spot price of gold and silver), the size of your transaction, the frequency at which you enter into Contracts with us, expected levels of interest rates, implied volatilities and other market conditions during the life of the Contracts and the currency pair and the time zone in which you choose to trade. The spreads range from between 0.5 Pips to 10 Pips for major currency pairs and 0.5 Pips to 100 Pips for exotic currency pairs. GOOD ENOUGH FX will quote 5 decimal places for most currency pairs but the 4th decimal place is classed as the pip.

7.5 You will be charged a "roll over" fee with respect to Spot and Forward transactions. As long as the deal remains open, there is a "roll over" charge which represents the interest rate swap and a finance rate, which is determined by the currency pair being traded. Swap rates are indicative rates and are subject to change based upon market volatility. They can change daily and are published by GOOD ENOUGH FX within the trading platform. Clients are able to check the Swap rate / Rollover rate by opening the trading platform and selecting Market Watch, right clicking and selecting Symbols. The GOOD ENOUGH FX website will update periodically with these rates however we encourage you to check current rates via the trading platform.
